

ReCaP™ EXTREME Solution Benefits Measurement Tree

Auto Financing Core Process Applications

A number of auto finance core processes benefit from the implementation of the ReCaP EXTREME System. This Benefits Measurement Tree illustrates the auto finance sources' objectives by:

1. core process objective
2. pairs the associated benefit when using the ReCaP System,
3. indicates the performance metrics utilized to measure potential benefit or savings and
4. delineates the productivity gains with the implementation of the ReCaP System.

The ReCaP System impacts workflow efficiency and operational effectiveness of the key auto finance core processes.

In the conclusion, this elaboration on how the ReCaP System puts auto-financing companies in a better position to achieve the objectives described above.
